KRK JE NAJBLIŽI OTOK ZA NAUČIČARE IZ SREDNJE I ZAPADNE EUROPE

OTOK JE POVEZAN S KOPNOM PREKO MOSTA

ZRAČNA LUKA NA OTOKU UDALJENA JE POLA SATA VOŽNJE OD MARINE

BRZA CESTA DUŽ CIJELOG OTOKA

MARINA PUNAT JE SMJEŠTEN NA JUGOZAPADNOJ STRANI OTOKA

NALAZI SE U PRIRODNOJ, ZAŠTIĆENOJ UVALI

KRK IS THE NEAREST ISLAND TO CENTRAL AND WESTERN EUROPE

CONNECTED TO THE MAINLAND VIA A BRIDGE

THE AIRPORT ON THE ISLAND IS HALF AN HOUR DRIVE FROM THE MARINA

HIGHWAY ALONG THE ISLAND

MARINA PUNAT IS SITUATED IN THE SOUTH-WESTERN PART OF THE ISLAND

SETTLED IN ONE OF THE BEST PROTECTED NATURAL BAYS

Opuštanje u duhu Mediterana

Relaxation in a Genuine Mediterranean Spirit

Punat uživa blagodati tipičnog mediteranskog krajolika—ljetne temperature zraka kreću se između 25° i 35°C, a mora od 23° do 26°C. Zime su kratke i blage.

Otok Krk, najveći jadranski otok, davno su prozvali zlatnim, jer zlatni su ovdje priroda i zalasci, plaže i guste šume, kamenjar i krš, maslinovo ulje, vino i med. Razne stilske epohe (doba Rimljana, vladavina Venecije, starohrvatska ostavština...) ostavile su tragove koje nalazimo u nizu značajnih kulturno-povijesnih spomenika, što ih vrijedi razgledati. Tradicijom vezani uz more, stanovnici Punta vrsni su mornari, brodograditelji i ribari, poznati su i kao vinogradari, a puntarsko maslinovo ulje cijenjeno je nadaleko.

Punat ima raznoliku ponudu smještajnih kapaciteta, pruža mogućnosti za sport i razonodu, a bogatstvo prirode i kulturne baštine najbolje se sačuvalo na otočiću Košljunu. Franjevački samostan na tom otočiću ima bogatu sakralnu, etnografsku, numizmatičku i prirodoslovnu zbirku te knjižnicu s više od 20.000 starih, rijetkih i dragocjenih knjiga.

Punat enjoys the benefits of a typical Mediterranean climate—summer temperatures oscillate between 25° and 35°C, while sea temperatures are between 23° and 26°C. Winters are mild and short.

The island of Krk, which is the largest island of the Adriatic, was named “the golden isle” long ago due to the fact that the natural surroundings and sunsets, beaches and dense forests, rocky and karst areas, olive oil, wine and honey are truly golden. A variety of epochal styles (from Roman times, Venetian rule, old-Croatian heritage...) have left traces which we encounter in a series of significant cultural-historical monuments that are definitely worth seeing. Traditionally bound to the sea, the inhabitants of Punat are expert sailors, shipbuilders and fishermen. They are also well known as winemakers, while Punat olive oil is valued far and wide.

Punat has a diverse offer of accommodation capacities, it offers many sports and leisure opportunities, while the richness of the natural and cultural heritage has been best preserved on the small island of Košljun. The Franciscan monastery on this island has a rich ecclesiastical, ethnographic, coin and natural-science collection and a library with over 20.000 old, rare and valuable books.

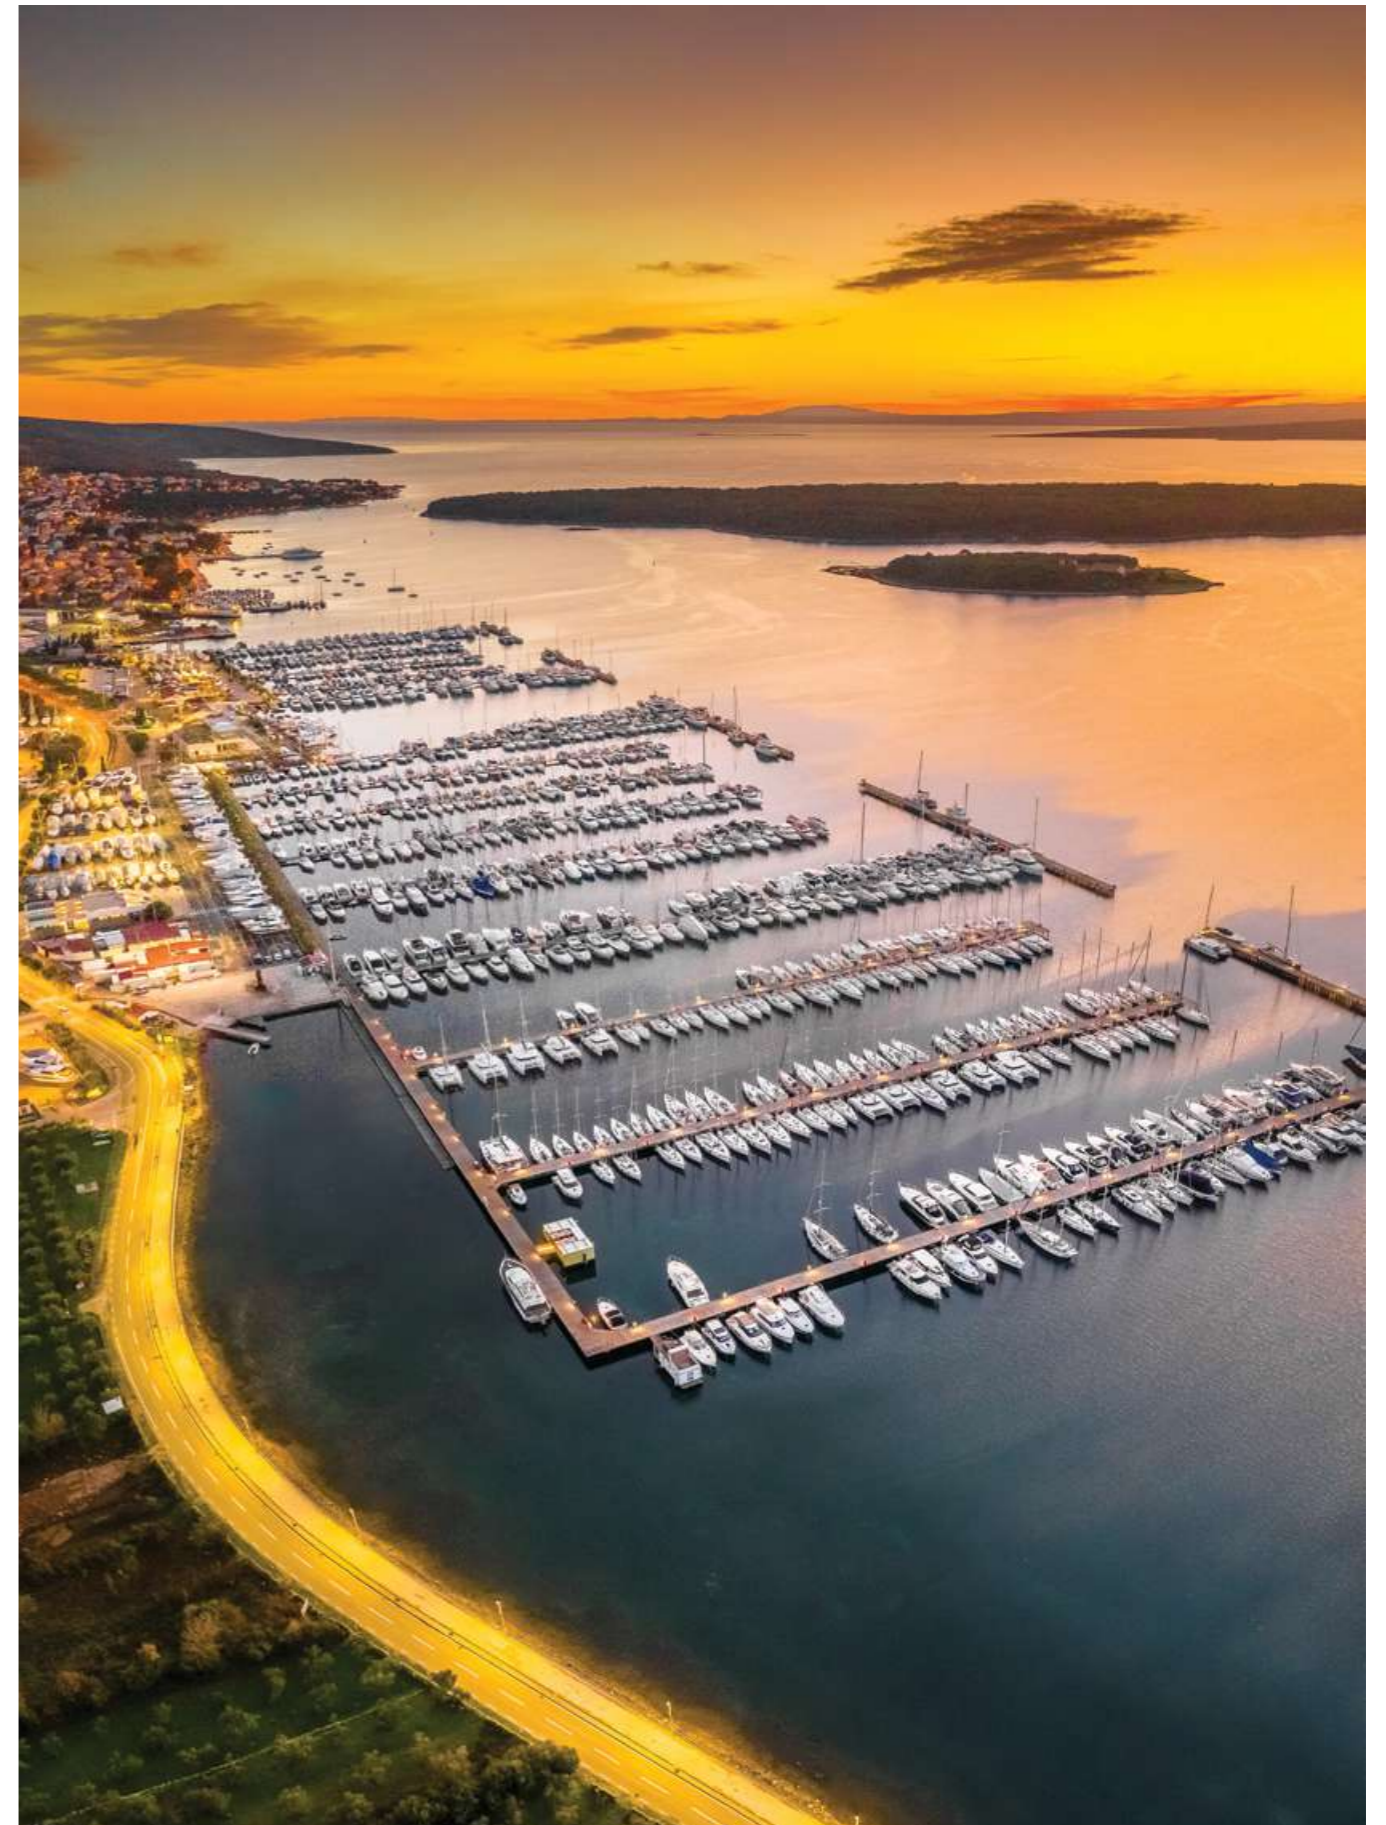

Drugi dom brojnih nautičara

A Second Home to Many Boaters

Marina Punat Grupa predstavlja idealnu lokaciju za cjelogodišnji smještaj plovila. Za vašu udobnost su tu dva restorana, hotel s otvorenim bazenom i wellnessom, pažljivo odabrane dodatne usluge i trgovine. Stalan vez u moru ili smještaj na kopnu, nautička trgovina, originalni rezervni dijelovi i vrhunski opremljen yacht servis, pružaju sve što je potrebno za brezbrizan boravak.

Marina Punat Group is an ideal location for year-round boat accommodation. For your convenience there are two restaurants, a hotel with an outdoor pool and wellness, carefully selected additional services and shops. Permanent berth at sea or storage on land, nautical store, original spare parts, and superbly equipped yacht service, provide everything that is needed for a carefree stay.

O Marini Punat

About Marina Punat

OD 1964.
SINCE 1964

Marina je od 1964. drugi dom brojnih nautičara

Since 1964, marina has been a second home to many boaters

Marina se, prije više od 60 godina, razvila na bogatoj brodograditeljskoj tradiciji, u okrilju jednog od najstarijih brodogradilišta u drvu. Bila je to prva marina uopće na istočnoj strani Jadrana. Počevši davne 1964. godine, s ondašnjih 10 vezova na jednoj drvenoj rivi, razvila se u jednu od najmodernijih nautičkih luka Jadrana s više od 1300 brodova!

Marina raspolaže kvalitetnim vezovima za plovila do 40 m, na čak 14 gatova. Smještaj na kopnu omogućen je na platou marine bliže moru, kao i u suhoj marini.

More than 60 years ago the marina developed from the rich shipbuilding tradition, under the auspice of one of the oldest shipyards working with wood. It was the first Marina on the Croatian coast of the Adriatic. Beginning long ago in 1964 with 10 berths on one wooden pier, it has evolved into one of the most modern nautical ports of the Adriatic with over 1300 boats!

The marina offers high quality berths on 14 piers, for vessels up to 40 m in length. Dry berths are provided on the marina plateau near the sea, and in the Dry Marina.

Brodogradilište Punat Shipyard Punat

OD 1922.
SINCE 1922

Brodogradilište Punat ponosi se stogodišnjom tradicijom. Nekada malo brodogradilište za drvene brodove, u 2022. godini proslavilo je stotu godinu uspješnog poslovanja. Nekada orijentirano isključivo na drvo kao brodograđevni materijal, danas Brodogradilište svojim kapacitetima, u suradnji s poslovnim partnerima, pruža potpunu uslugu remonta svih vrsta radnih plovila i mega jahti.

The Punat shipyard is proud of its hundred-year tradition. Once a small shipyard for wooden vessels, in 2022 it celebrated its hundredth year of successful business. Once oriented exclusively on wood as a shipbuilding material, today the Shipyard, with its capacities, in cooperation with business partners, provides a complete service of all vessels types and mega yachts.

Nautička opskrba

Nautical Equipment

U marini i yacht servisu postoje dvije specijalizirane trgovine nautičkom opremom i dijelovima. Sve ostale potreštine su također nadohvat ruke u malom, ali dobro opremljenom marketu.

There are two specialized shops for nautical equipment and spare parts in the marina and yacht service. All the other necessities are also within reach in a small but well equipped grocery store.

Kurs u smjeru održivosti

A Course Towards Sustainability

Upravo zbog dobrog gospodarenja otpadom, odlične čistoće i kakvoće mora, ekoloških principa te racionalnog korištenja prirodnih resursa, još od 1998. godine zaredom marina osvaja međunarodno priznanje *Plava zastava*.

Provode se kontrolirani nadzori nad tehnološkim procesima koji bi mogli ugroziti okoliš. Ekološki principi i sve što pruža priroda je izuzetno dragocjeno te se upravo zbog toga ulažu veliki naponi u čistoću podmorja i racionalno korištenje prirodnih resursa.

Since 1998, the marina has consecutively been awarded the Blue Flag, as an international recognition of excellent waste management practices, excellent sea cleanliness and quality, ecological principles and rational use of natural resources.

Controlled supervision of technological processes that could threaten the environment is implemented in the marina. Nature and the environment are highly appreciated, and that is why significant efforts are invested in the cleanliness of the underwater and rational use of natural resources.
