

ORDER REGULATIONS IN THE DRY DOCK MARINA "BRODICA" d.o.o.

I. GENERAL CONDITIONS

This regulation shall proscribe the conditions and the manner of maintaining order in the dry dock marina Brodica d.o.o., hereinafter referred to as Brodica.

The regulations shall be valid in the entire area of Brodica.

The order in Brodica shall be enforced by the management of the company BRODICA d.o.o.

II. ENTRANCE – EXIT

The entrance and the exit shall be regulated by ramps without the presence of a doorman.

The ramps shall be opened and closed by means of prepaid cards, provided to vessel owners on signing the agreement for the accommodation of the vessel on land, which shall amount to one card per vessel.

The entrance and the exit shall be supervised by cameras.

On arrival to Brodica, the vessel owner shall register himself and other crew members at the Marina Punat register desk.

The maximum speed limit in the area of Brodica is 5 km/h.

Night rest shall last from 11 p.m. until 7 a.m.

III. ACCOMMODATION OF THE VESSEL ON LAND

In the area of Brodica, vessels shall be accommodated exclusively on standardized cradles owned by Brodica or on trailers owned by the vessel owner.

The manager of Brodica shall determine the location for the accommodation of the vessel on signing the agreement, and if necessary, he shall order the transfer of the vessel in the area of Brodica without prior approval by the vessel owner.

The vessel shall be covered by a good adequate tarpaulin.

The connection of the vessel to electrical and water-pipe installations shall be permitted only if the vessel has appropriate installations for that purpose.

In the entire area of Brodica it is forbidden to:

1. have a cable plugged in the socket for power supply at the time when noone is on board. The cable shall be disconnected on leaving the vessel or the staff of Brodica shall disconnect it
2. use gas or electric heaters
3. weld, perform works with open flame, keep fire on the open hearth at the plateau or on the vessel
4. grind or scrape with electrical tools
5. perform repairs or reconstructions of the hull, deck, equipment or machinery on the vessel outside the usual maintenance jobs
6. perform various operations on the vessel which may endanger human lives, cause fire, pollute the environment or cause damage to other vessels
7. perform any alterations on electrical and water-pipe installations owned by Brodica
8. start the engine without the presence of an authorized mechanic
9. have service technicians without a contract with Brodica perform any kind of work
10. use the toilet on board
11. empty the chemical toilet into the Brodica toilet facilities
12. let dogs run without a leash, take them into the Brodica toilet facilities and leave their waste behind
13. lock any kind of items to the boat cradles by means of a lock or a chain
14. lock the trailer towing hook

15. while being at sea, park the car in a way that prevents access to other vessels on land
16. linger in the operational area of the hydrolift
17. disturb other guests of Brodica by making noise.

IV. PROCUREMENT

Orders for works shall be placed exclusively in writing at the reception desk of Brodica or by e-mail. If the works were ordered by e-mail or phone, they shall be confirmed at the reception desk of Brodica on arrival to Brodica.

V. WASTE RECEPTION AND HANDLING

The management of Brodica established that the reception of waste, excluding human excrement, shall be performed by means of a selective reception into containers. Eco-point for the reception of selected waste is situated in the central part of the area of Brodica, between the entrance into Brodica and sanitary facilities, and it consists of:

1. two containers for various waste, capacity 1100 lit – green
2. two containers for bio-waste, capacity 350 lit – brown
3. one container for paper, capacity 350 lit – blue
4. one container for plastics and pet-packaging, capacity 350 lit – yellow
5. one container for cans and glass, capacity 250 lit – grey
6. one plastic case for worn-out batteries, dimensions 1mx1, 2mx0.8m – grey

Eco-point for waste oil, filters and oily rags is situated in the northern part of Marina Punat, next to the door for the passage of hydrolift, and it is made of a green steel container, 1000 lit of capacity, within a roofed space with grate-like door.

VI. MANNER OF CONTROL

The control of the implementation of this regulation shall be performed by the management or the person authorized by the management.

VII. FINAL CLAUSES

On the day this regulation enters into force, the former Order Regulations in the dry dock marina Brodica shall no longer be valid.

This regulation shall enter into force from the moment of its distribution.
